

February 2025

Dear Friends and Supporters,

Have you sensed a change in the attitude in America? Is there a renewed sense of patriotism? Of belief in America?

During the past four years of the Biden presidency, we were a more divided nation than ever. The President, who said he would be a unifier, became the great divider.

The Wallstreet Journal did an in-depth report on Biden's lack of mental acuity from the beginning of his administration. As the four years transpired, Biden's dementia became more and more apparent to the point that he was not what he was represented to be. His controllers hid him from us.

He was the real life "Manchurian Candidate." Who was in control? Soon, we knew it was the "progressives" with a goal of the liberal unamerican agenda, i.e. abortion on demand, various sexual perversions, transsexuals in bathrooms and sports, DEI, a woke military, exclusively electric vehicles, damage to our economy, weaponization of federal agencies, *etcetera*.

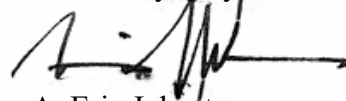

We on the conservative Christian side were the objectives of these faceless, nameless rulers. Some of us personally know the vitriol of the Biden Department of Justice. And, Joe Biden was not even aware. He was Dr. Faustus, selling whatever soul he had, just to be president.

Jimmy Carter recently died. He was remembered as a nice man, but ineffective President. On the other hand, Joe Biden was neither. He was not a nice man and was a perversely ineffective president. If objective history be known, he will go down as the worst president in American history.

Trump's elective mandate suggests things will be different. Not vindictive but bringing America back to the values that make us a great leader of the free world and a respecter of each other's differences. We ask you to join us in praying for a return to these values. The new year and a new day is before us.

Thanking you for your support, I am,

Yours very truly,
